

**JIT COMPANIES BRINGS METAL FINISHING  
TO A NEW LEVEL**

Our "Metal Artisans" specialize in applying straight-line surface finishes to a variety of ferrous and non-ferrous materials. These include stainless and mild steel, aluminum, bronze, brass and copper alloys.

Metal configurations include bar stock, round, square and rectangular tube up to 20 ft. length. Angles, channels, sheets and plates round out the types of materials we are capable of processing including already fabricated parts.

We can handle everything from mill scale removal, to a pre-polish and everything in-between. If you have a specific RA surface finish requirement, let us know what it is and we will dial it in. We do have a few limitations regarding thin materials but in time we'll have that figured out too.

**EQUIPMENT AND CAPABILITIES**

We implement various equipment at JIT to produce the results you are looking for. Our machinery includes automated 36" wide belt equipment for fast, consistent grain finishing. Automated round tube finishing from 1/4" up to 5" diameter. A variety of "Old School" horizontal and vertical stroke sanders that go up to a massive 20 feet in length; so yes, we can provide a straight line brushed finish, the long way on round tube if you need it done. For detail work, we have a vast array of special power hand tools and abrasive types to help achieve success with difficult situations.

# JIT METAL FINISHING

**CONTINUALLY INVESTING IN THE FUTURE**

We are constantly investing in new equipment and improving our finishing processes so if we can't do it today, we can probably do it tomorrow. Our best investment however, is in the "Metal Artisans" that make a difficult job look easy.

**WHO WE SERVICE**

Metal suppliers, fabricators, sign companies, food service equipment makers and other specialty manufacturers prefer our attention to detail and high internal standards which ensure consistent results on time and on budget. If you are looking for a project partner to put the finishing touches on your material, you have found one at JIT.

Contact our knowledgeable staff today with any questions. You'll be glad you did.
